

Alabama passed dyslexia amendments to their Administrative Code

Now students will be screened for dyslexia, then given appropriate intervention and given access to assistive technology. The changes took effect immediately and also established the Alabama Dyslexia Advisory Council, a Dyslexia Resource Guide and mandated that IDA accredited professional development for educators be made available to equip them to meet the needs of students with dyslexia. - *International Dyslexia Association: Alabama's New Dyslexia Legislation*

Our new bundled solution will help

MindPlay Literacy

Students screened and given appropriate intervention and access to assistive technology

mindplay
